Business Resources in Wasco County: How do you start a Business?

Some of these steps can happen at the same time, but we encourage you to take the time to develop clear plans and structures for your business from the beginning!

STEP 1

Before you start your business...

Do you have **KNOWLEDGE** pertaining to the business you plan to enter?
Do you have **EXPERIENCE** managing people and finance?

STEP 2

Write a Business Plan

It is vitally important to develop your business plan. This will help clarify your **BUSINESS OBJECTIVES**, market, and competition as well as begin development of strategies to move toward your goals! Your business plan should also include elements on **FINANCING AND MARKET STRATEGIES**.

STEP 3

Legal & Licensing

Set your **BUSINESS STRUCTURE**. Your decision will impact not only your legal structure but also your taxes.

Check **LICENSING REQUIREMENTS**. While there are no local licenses required, there are potentially state licenses, permits, or certifications needed.

STEP 4

Seek Financing

The plan for this step should be part of your business planning, and can happen at several intervals during the life of your business. Check out banks, state and local financing, potential investors, or even the community public offering models!

Need assistance with any of these steps?

More details can be found at: www.cgcc.edu/sbdc/starting-business. **Contact the Small Business Development**

Center for one-on-one business counseling, support developing a business plan, training, and much more! For additional resource providers review the Business Development and Financing resources sections in this guide.

STEP 5

Locate your Business

Follow the steps in this **BUSINESS SITING GUIDE** to find or build the right space to house your business and comply with the local planning and building requirements.

Siting a Business in an Existing Building

This handout was prepared to help you move through the various local permitting processes to site a business in the City of The Dalles. For resources on how to form a business, visit www.cgcc.edu/sbdc/starting-business or contact the Small Business Development Center at Columbia Gorge Community College at 541-506-6121.

Step 1: Contact the City of The Dalles Planning Department to determine if the use is permitted in that zone and to get a permit for any additions. This office is also your stop for any floodplain, sanitation and historical building permits. (Exterior alterations to historic buildings require a permit. Ask about possible financial benefits for improving historic buildings.) They will also have information about possible Urban Renewal financing to help with improvements. All new businesses are required to fill out a Proposed Change in Use Application from this office.

Step 1-A: If you will be making building modifications or if your use is more intense than the previous use, the Planning Department will set up a Pre-Application Meeting with you to discuss the project. After receiving all of the required information, the Planning Department will set up a site team review. The Fire Marshall, Building Codes, and utilities are also invited to this meeting.

Step 2: Provide required information to Mid-Columbia Building Code Services if permits are required and discuss any fire, life, or safety upgrades required. Generally, a permit is required to construct, enlarge, alter, repair, move or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, convert or replace any electrical, gas, mechanical or plumbing system.

Siting a Business in an Existing Building

Step 3: Contact the Oregon Department of Environmental Quality if you are remodeling an existing building and suspect there might be hazardous materials. The proper removal of hazardous materials is essential. Potential hazardous materials include asbestos, underground fuel tanks, hazardous waste, water quality, used woodstoves, or dust problems.

Contact: Oregon DEQ Office at Columbia Gorge
