Re: Lone Pine Subdivision Project Blasting Plan

The City of The Dalles has received notification from Project Manager Greg Jensen of Crestline Construction, Inc. that blasting will occur during the next two weeks (between 7/25/2018 and 8/08/18) on property located at the end of the Lone Pine development. The blasting will help to remove rock outcroppings that the contractor is not able to excavate with heavy equipment for site preparation prior to construction. The blasting plan has been submitted and approved by the City of The Dalles and is required to follow APWA (American Public Works Association) standard specifications.

Pre-blast surveys will be performed on all structures within 200 feet of the blast zone as well as required signage and traffic control measures will be set-up along the interior road systems in Lone Pine during the procedure.

All questions should be directed to Greg Jensen, Project Manager for Crestline Construction at 541-506-4000 or to the City of The Dalles - Dawn Marie Hert, Senior Planner at 541-296-5481 ext. 1129, or Dale McCabe, City Engineer at 541-506-2021.
